

RESPECIALIZATION PROGRAM

IPTAR is an interdisciplinary Institute offering training to all individuals who are interested in the field of Psychoanalysis. Those in the mental health professions who have at least a Master's Degree in their field of professional training and are either licensed or enrolled in a program leading to New York State licensure should apply to the Program in Adult Psychoanalysis.

IPTAR is also committed to offering training to qualified individuals with backgrounds in the humanities, the social sciences, and the arts. These individuals must have at least a Master's Degree and should apply to IPTAR's Respecialization Program.

Applications for the full analytic program are welcome throughout the year. The Admissions Committee will consider those applications received by June 1st for the following fall class. Upon receipt of all materials, the Admissions Chairperson contacts the applicant to arrange for two interviews. The applicant is notified about the committee's decision after a review of the applicant's material is complete.
